8 June 1956

MEMORANDUM FOR THE RECORD

THROUGH: Contracting Officer

ACC 4/8/56

SUBJECT: Telephone Conversation with Mr. MacFadden, Hycon, Pasadena, California, 7 June 1956

1. How goes it with the "B"?

The "B" went out to Monday or Tuesday of this week. Nothing to report in way of its test flight results. Next two weeks should give Hycon some idea as to its reliability and if additional modifications are necessary.

25X1

2. Any change in production schedule for "B"?

They are fabricating two in the shop now. If everything goes well they should have three, including "B" at by the end of this month.

25X1

3. Any information on maximum film load for "B"?

No.

4. What is latest on "C"?

Metal parts now in shop. They will try to have one in September. (This date doesn't include bench test, etc., at factory).

5. Mac stated he will see to it that the film inventory accounting system and the test flight reports for April and part of May will be sent as soon as possible.
